ANNUAL MAGAZINE 2015-16

EDITORIAL

Ms. Alpana Sharma

*“Live to the fullest,
Love to the fullest,
Express from your heart....”*

Of all the things we wear, our expression is most noticeable....

With enjoyment and pleasure, we put forward the next dynamic piece of creativity, freedom, self-expression, enthusiasm of our year's work in our Annual Magazine SPARK, which is an amalgamation of the year long work of talented souls along with, the blend of unique taste from each one who have contributed for this magazine.

SPARK is more than just a magazine where the potentials, talents, achievements and vision of our college get reflected. This is that proud moment where our teachers and students take pride in their hardwork and cherish their fruits of labour and sincerity of the year that is gone by. It indeed results in SPARK and positive energy within us and we hope this association continues for a life time.

This years college magazine throws light on best aspects of our personalities through SELF-EXPRESSION...!!!

It is often seen that one of the biggest blocks to creativity can be our mind's inability to allow a thought or insight to have the space to become a possibility. Some of the most inspired ideas are ones that start of as crazy concepts. By allowing them to be possibility, they may blossom into something really usable. Often our mind may immediately shoot down a seemingly crazy idea by judging and analyzing it too soon. The Creativity Formula can help each of us to refrain from judging our ideas or oneself and thus blocking or stifling creativity. This is the purpose and our positive drive behind this magazine. Our College PCER, Panvel has always believed in being unique and doing things '*its own way*', then why not display the fruits of it..?

What a time it would be to see each one's creativity flowing from within, where creativity sees no good nor bad...it is just one's own imagination, then be it through poems, songs, drawings, painting or any other form of art. What matters is, it's one's own creation. We need to instil in our students that any original piece of work, be it small or colourless, it's the depth that matters.

Imagine how great and light one would feel if they are not judged by outside competition, not judged by standards set by others, but are respected for what THEY TRULY ARE. So! Who are we? Well, we are the results of our own thoughts (as quoted by Gautam Buddha). So, flow through any art form, express self, see the beauty within and soon we shall learn to find beauty in every creature or task or event we come across in our lives.

I express my gratitude to Dr. Sally Enos, our Principal for keeping her faith in me and supporting me to put this year's memories in this magazine.

Editorially Yours
Ms. Alpana Sharma
