WASTE MANAGEMENT POLICY

Policy No: WMP/pcerp/2021

The waste management policy of MES' Pillai College of Education & Research, New Panvel (W), is made to pay considerable attention to minimize the production of waste on the campus. It is the responsibility of the institute in creating awareness among the students and staff about the measures to manage waste. This policy is a guidance document to the faculty, staff and students to behave responsibly in the production of waste, waste segregation, storage, handling and disposal.

Objectives:

1. To create consciousness among faculty and students about the ways in which waste is generated.
2. To create awareness about means by which they can reduce waste generation and manage the waste they produce.
3. To give appropriate training to segregate waste and dispose them using appropriate method without creating further environmental pollution.
4. Adopt appropriate technologies for processing and managing solid, liquid and e-waste.

Our Policy:

- Reduce waste generation at source.
- Ensure that waste management is done in a responsible manner.
- Follow the five "R" principle of reduce, reuse, recycle, refuse and regenerate wherever required.
- Ensure the safe handling and storage of waste in the college.
- All one-side used papers shall be utilized for routine printing activities.

- Precaution shall be taken not to bring disposables such as PET bottles, thermocol, paper plates or cups to the campus.
- The college must conduct e-waste collection drive and shall take care of the safe disposal of e-waste by collaborating with registered organizations for the same.
- Participate in Swachhata Abhiyaan Programmes & adhere to the policy of MGNCRE on Swachhta Action Plan.
- Organize seminar/ workshops/ sessions/ expert talk on waste management.

The Institute shall continuously review and update the approved policy and is committed to its implementation.

ENERGY POLICY

Policy No: EP/pcerp/2020

The energy policy of MES' Pillai College of Education & Research, New Panvel (W), is made to monitor, conserve and manage the energy needs of the institute; It is the responsibility of the institute in creating awareness among the students and staff about the energy conservation measures.

Objectives:

1. Minimize Energy consumption by use of Energy efficient Equipments.
2. Make use of renewable energy.
3. Maximize the use of day-light, natural ventilation and energy substitution.
4. Create awareness about energy conservation.

Our Policy:

1. Make use of natural ventilation
2. Maximize use of natural day light for indoor illumination
3. Fine tuning of temperature setting of Air-conditioners and water-coolers
4. Conduct seminars to spread awareness amongst the community
5. Encourage students to make posters in the area of Energy conservation.
6. Maintain the Energy needs of the campus with a back-up power supply system for supplying uninterrupted energy demands.
7. Create awareness among the students and staff in Energy conservation by conducting training programs.
8. Keep windows and doors of the conditioned spaces closed.
9. Turn off personal computers, other office equipment, lights, air conditioners when not in use.

10. Upgrade most lighting in the institution to high efficiency lighting (such as T5 fluorescent, LED technology, etc.).
11. Increase use of day lighting and daylighting controls because use of daylight spaces decreases energy costs and may improve productivity.
12. Conduct of Green Audit from time to time.

The Institute shall continuously review and update the approved policy and is committed to its implementation.

**Organizes
National Level Webinar
On
ENVIRONMENTAL
RE-ENGINEERING**

14th October 2023

About Mahatma Education Society:

Five decades ago, Chairman & CEO Dr. K. M. Vasudevan Pillai and Secretary, Dr. Daphne Pillai started on the journey to set up an enviable successful educational enterprise to deliver quality education. MES today has to its credit 48 institutions from KG to postgraduate professional courses at Chembur, Gorai, New Panvel (East), New Panvel (West) and Rasayani.

Our Institution:

MES' Pillai College of Education and Research, New Panvel established in 2007, offers B.Ed., M.Ed. and Ph.D. courses affiliated to the University of Mumbai with NCTE recognition and Government approval. The institution is designed with a futuristic outlook and provides a conducive environment to the students keeping in mind the need of the present. Our mission is "To promote purposive education through globalization of mind with societal insight and using education for value transmission to facilitate the student teachers to perform effectively different roles as a teacher in the present society."

**About Soroptimist International
Bombay Chembur:**

The SI Bombay Chembur unit of Soroptimist International was founded in November 1995 under the dynamic leadership of Dr. Daphne Pillai. It has a vision to bring about a positive change in the lives of women and girls through education, empowerment and development of their skills and abilities.

The mission of the organization is to inspire, motivate and guide women to lead their lives with dignity and pride through affirmative action and networking. Over the past 25 years its initiatives and advocacy work has impacted the lives of many girls and women, providing them opportunities for education and skill development, healthcare and many more. The focus has always been to work towards the achievement of SDGs of the United Nations.

About the Webinar

In today's rapidly changing world, environmental challenges have reached critical levels, necessitating innovative approaches to address them. A webinar on environmental reengineering offers a platform for experts, researchers, policymakers, and concerned citizens to come together and explore novel strategies for reshaping our interactions with the environment. This virtual event serves as an opportunity to share insights, discuss current initiatives, and envision a sustainable future through reengineering practices. By adopting this approach, industries, communities, and governments can work collaboratively to find practical solutions for pressing environmental issues.

Research and case study papers are invited on mitigating plastic pollution with various strategies and approaches used, its applications & implications in the field of Education.

Mitigating Plastic pollution

Mitigating plastic pollution involves adopting sustainable practices to reduce the harmful impact of plastic waste on our environment. It involves two key approaches like upcycling and recycling, both of which contribute significantly in mitigating plastic pollution. Researchers are encouraged to explore sustainable alternatives to single-use plastics, showcasing revolutionary materials & technologies poised to transform consumption patterns to significantly curb the environmental impact of plastic waste.

Objectives of the webinar

- Th objective of the webinar is to educate participants within the education sector about the pressing issue of plastic pollution and its environmental impact.
- The webinar seeks to empower educators, administrators, and education professionals with practical strategies and tools to integrate discussions about plastic pollution mitigation.
- The webinar seeks to inspire participants to take concrete actions within their respective spheres of influence.

Essentials for paper presentation :

- **Only original papers will be accepted**
- **The contributors are requested to send the abstract (not more than 250 words) along with the full paper (1500 words) on or before 30th Sept. 2023 via email only to pcerseminar@mes.ac.in**
- **Papers by post will not be accepted.**
- **Paper size: A4**
- **Title of the paper: Bold and center (Font size:14)**
- **Contributor: Name, institutional address, email ID and mobile no. (On the right corner below title)**
- **Alignment: Justified**
- **Margin: Top -1" , Bottom- 1" ,Left- 1.25" , Right - 1" .**
- **Font and font size: MS word, Times New Roman (English)-12, Mangal/Shivaji text-14 and title-16 (Marathi/Hindi)**
- **Line spacing: 1.5**
- **References: APA style (7th edition)**
- **All papers will be scrutinized and notified accordingly.**
- **Selected papers will be published in the Seminar Proceedings with an ISBN.**

NATURE CLUB

**Presents THE
ECO-BRICK MOVEMENT
15th February 2023**

What is an ecobrick?

An ecobrick is a building block made entirely from unrecyclable plastic.

Why is Eco-Brick Movement needed?
Eco bricks help reduce plastic waste by using it as a building material instead of sending it to landfills or polluting the environment.
